TECHNICAL SKILLS

- Languages:** Java, Javascript, HTML, TailwindCSS
- Web Development:** React.js, Node.js, Express.js, Socket.io, Mongoose, ShadCDN
- Developer Tools:** Eclipse, IntelliJ IDEA, VS code, Mongo-Compass
- Version Control:** Git, GitHub
- Databases:** MySQL, MongoDB
- IT constructs:** DBMS
- Miscellaneous:** Postman

WORK EXPERIENCE - 2 YEARS

Infosys Ltd

Dec 2022 - Present

Software Engineer

- Designed and developed user interfaces using React.js, ensuring responsiveness and user experience across different devices.
- Implemented interactive features and data visualization elements using JavaScript (ES6+).
- Built robust and scalable APIs using Node.js and Express.js for efficient data handling and communication.
- Implemented CRUD (Create, Read, Update, Delete) operations for data persistence using MongoDB and Mongoose ODM.
- Employed authentication and authorization mechanisms for secure access to APIs and user data.
- Proficient in Git for version control, collaboration, and code deployment (GitHub, GitLab).

EDUCATION

B.Tech/B.E.- Electrical

Guru Nanak Dev Engineering College
7.5 CGPA

National Public School

Intermediate(XII)

National Public School

High school(Xth)

CERTIFICATIONS

- Infosys Certified Associate React Developer
- Infosys Certified Associate Node Developer
- Infosys Certified HTML,CSS,JavaScript Learner

PROJECTS

Job Portal | React.js, Tailwind, ShadCDN, Node.js, Express.js, MongoDB

- Developed a full-stack web application Job Portal using React.js, Tailwind, Node.js, Express.js, and MongoDB.
- Built a robust and scalable backend API using Node.js and Express.js for efficient handling of user interactions and data flow.
- Implemented a data persistence layer using MongoDB and Mongoose ODM, ensuring effective storage, retrieval, and manipulation of application data.

Event Handler | React.js, HTML, CSS, Bootstrap, JavaScript

- Developed a user-centric event booking application utilizing React.js, HTML, CSS, Bootstrap, and JavaScript.
- Implemented a robust event handling system using React's component lifecycle methods and state management (e.g., Redux, Context API) to handle user interactions efficiently.
- Designed and built a responsive and intuitive user interface (UI) using HTML, CSS, and Bootstrap for a seamless user experience across various devices.
- Developed different event types with their own booking flows (e.g., workshops, concerts, conferences).
